JUSTIN STOLPE 651-216-3409 stolpe.justin@gmail.com

OBJECTIVE

To obtain a software development position with a company where I can contribute with my skills to help that organization grow, and continue to develop and enhance my abilities as a developer.

WORK HISTORY

2014-Present UNITYWORKS PART OF J. D. POWER

Bloomington, MN

Sofrware Developer

- UnityWorks, part of J.D. Power, is a "big-data" video ad agency. We run multiple large scale campaigns which mainly consist of driving traffic to video landing pages. I work on generating and delivering ads to customers at scale on the major social media platforms through their APIs. The ads, when clicked on, will send the user to any number of our custom landing pages which I also work on and maintain. I work daily on the front and back end for multiple websites.
- Tech: PHP, MySQL, JavaScript, CSS, Windows, Cygwin, Linux, Sublime Text, jQuery,
 HTML, Codeigniter, JSON, Google Maps API, Google Charts API, MVC, Git

2014 ROBERT HALF

Minneapolis, MN

Web Developer

- I was placed on a contract with UnityWorks as a Web Developer. After about 6 months, I was offered a full time position on their interactive team.
- Tech: PHP, MySQL, JavaScript, CSS, Windows, Cygwin, Linux, Sublime Text, jQuery,
 HTML, Codeigniter, JSON, Google Maps API, Google Charts API, MVC, Git

2011-2014 ALADTEC INC.

Woodbury, MN

Software Engineer

- Aladtec is an online web based scheduling management system mainly for EMT and fire departments. I also worked in building their mobile apps.
- Tech: PHP, MySQL, JavaScript, CSS, Windows, Cygwin, Linux, OSX, Eclipse, Sublime Text, jQuery, HTML, Codeigniter, Java, JSON, Custom API, MVC, Subversion

2010 UNIVITA HEALTH

Eden Prairie, MN

Intern

- I was on the software development team at Univita Health for the summer of 2010. I
 got to see first hand the development and planning that goes into producing a big
 website. I got a chance to do little things here and there for different people on the
 team. I helped with testing, database management, coding, web design and much
 more.
- Tech: JavaScript, CSS, Windows, jQuery, HTML, .NET
